Heart of the House (2022) - Set Dressing

This is a film I directed last spring. The visual aesthetic of this film was very important to me, hence, me and the production designer worked very closely to achieve the desired look for the film.

Here I included some drapery work I did while we were set dressing to give the house a very deconstructed, Frankenstein meets cottage-core feel.

Heart of the House (2022) - Simple Miniatures

Familiar (2021) - Costumes

Laundry ghost made out of dish rags and old clothing.
